Jackrabbit

The **Apache**
**Software Foundation**
http://www.apache.org/

What is Apache Jackrabbit?

- Open source content repository for Java
  - Hierarchical content storage
  - Full text search, versioning, transactions, etc.
- JSR 170 reference implementation
- Initially developed by Day Software
  - Contributed to the ASF in 2004
- Graduated from the Incubator in March

Jackrabbit Timeline

| 2002	2003	2004	2005	2006	2007

JSR 170
started

Jackrabbit
in Incubator

JSR 170
final

Jackrabbit
graduates

2006: Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

0.9   1.0   1.0.1   1.1

Why should I care?

- "JDBC for hierarchical content!"
  - Alternative to object-relational mappings
- Target applications
  - Content management
  - Document management
  - Records management
- Intuitive support for XML and WebDAV
